1. Introduction

The information contained in this User Guide is applicable to the version of **IRU TIR-EPD** application, available on the site <https://tirepd.iru.org/>. **In order to obtain access to the TIR-EPD application, please contact your issuing Association.**

TIR-EPD is an application, enabling TIR holders to submit electronic pre-declarations (**EPDs**) to customs authorities in different countries.

1.1. System Requirements

The minimum standards required by the TIR-EPD application, are:

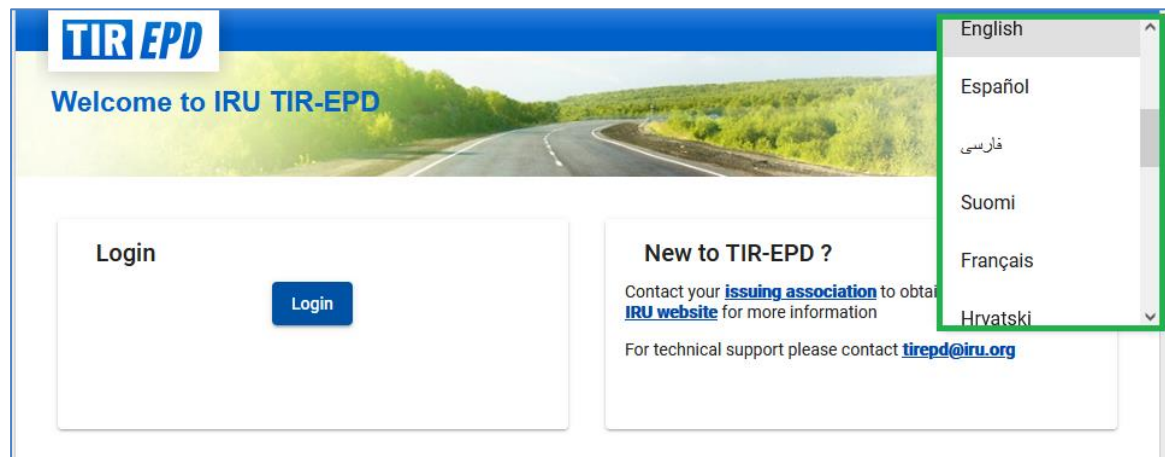

- Internet connection: a stable broadband access (Fiber, Cable, xDSL, 4G, 5G...)
- Web Browser:
 - Microsoft Edge version 107.0 and above
 - Mozilla Firefox version 100.3 and above
 - Safari version 15.6.1 and above
 - Google Chrome version 108.0 and above
 - Opera: version 87 and above

1.2. Primary Features

- *Manage* your *company profile*
- *Publish* your *company profile* to make it visible to other authorised 3rd parties (brokers, freight forwarders, warehouses, exporters/importers) for the purposes of developing business connections and opportunities
- Access for the *trusted network of 3rd parties*
- *Manage users* at the company level
- *Submit EPD* to customs authorities
- *Grant permission* to your Association and/or 3rd parties to submit pre-declarations on your behalf
- *Share EPD* and/or EPD drafts with 3rd party
- View and follow up *EPD message history* from respective customs authorities
- *Print out the printable version* of the pre-declaration and EPD pass
- *Print out CMR* note

1.3. Interface language

On log in and any other page, you can choose the interface language (in the right upper corner). The language of the interface can be changed from any screen of the application at any step.

2. Log in to TIR-EPD

URL: <https://tirepd.iru.org/>.

- **A valid e-mail address must be registered in your TIR-EPD account** in order to be able to reset the password. If for some reason you have not registered a valid e-mail, please contact TIR-EPD support (tirepd@iru.org).

3. TIREPD home page

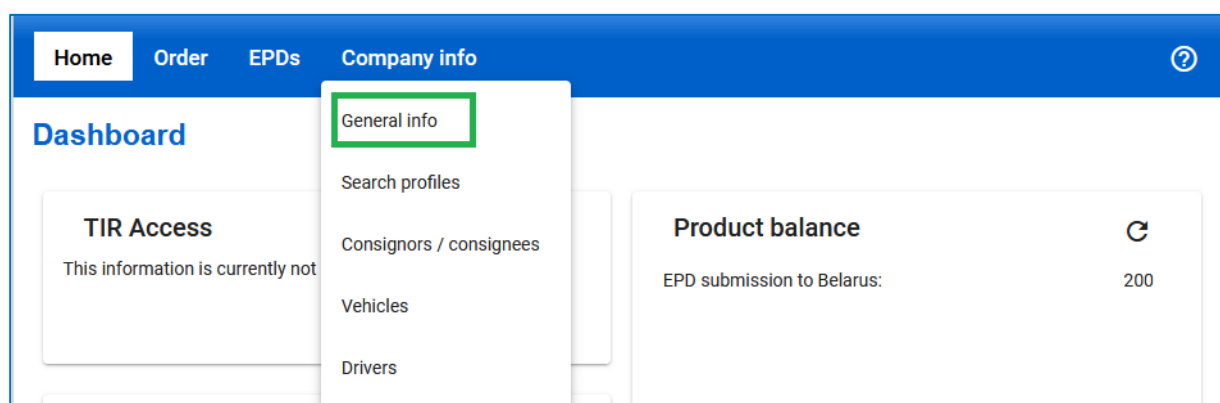

On the [Dashboard](#) you can check the [company situation](#), [current balance](#), including the [Guarantee quota](#) and the [Product balance](#). This information is progressively updating.

You also have shortcuts with quick access to the most useful actions, such as [Manage Business Profile](#), [Create / Search EPD](#), [Order](#). In the top right corner, you can access the TIR-EPD [user manual](#), [FAQs](#) and other information.

4. Manage company profile

Move your cursor to [Company info](#) and select [General info](#) to view your company profile.

Please make sure that your company information is correct. **A mismatch between the data in your pre-declaration and the one in your TIR Carnet may cause the rejection of your EPD by the customs officer at the border.**

Indicate your *EORI number*, if required, and it **will be used automatically for the pre-declarations sent to the European Union**. The validity of the entered *EORI number* will be checked automatically against the European Commission EORI database and an appropriate notification message concerning the EORI validity will be displayed.

You can also verify the correctness of your *EORI number* by clicking on the *loupe* , which will redirect you to the official site of Taxation and Customs Union.

Please, make sure that the company information indicated corresponds to the information in the EC EORI database; in case of mismatch, your EPD may be rejected.

On the *General Info* page, you can also indicate if you authorise your association or representative to submit EPD on your behalf (and representatives to access your vehicle details when needed) by checking the relevant check boxes:

- ✓ *Allow association to act on my behalf*
- ✓ *Allow persons acting on my behalf to access and send my EPDs*
- ✓ *Allow persons acting on my behalf to access vehicle and driver information*

5. Manage TIR-EPD Users

Different user rights or permissions may be granted to the TIR-EPD user. The following roles with [Permissions](#) are available:

- ☒ Manage Company Details
- ☒ Manage EPD's
- ☒ Manage Guarantee orders
- ☒ Manage Users

- [Manage Company Details](#) – user allowed to manage [Company Information](#) and [Search Business Profile](#)
- [Manage EPDs](#) – user allowed to [manage EPDs](#) (read, edit, create, submit), manage [Vehicles](#), [Drivers](#), [Consignors and Consignees](#), view the [list of messages](#) from Customs
- [Manage Guarantee orders](#) - user allowed to [manage Orders](#)
- [Manage users](#) – user allowed to [manage TIR-EPD users](#) (at company level)

Any user may see the [Company details](#) in read-only mode, if the [Manage Company details](#) rights were not attributed.

Any user may order units for EPD submission (required when submitting EPD in Belarus), if the [Manage Guarantee orders](#) rights were not attributed.

5.1. Create TIR-EPD User

User management is available if the [Manage users](#)' rights were attributed to the user. To create a new user, go to [Company info](#) => [General info](#) => [User list](#) => click on [Add user](#).

The screenshot shows the 'Company info' section of the TIR-EPD system. The 'User list' tab is selected, displaying a table of users. The 'Add user' button is highlighted with a green box. The table lists two users: 'abeturholder' and 'ako_042_2425'. Both users have the same permissions: 'Manage Company Details', 'Manage EPD's', 'Manage Guarantee orders', and 'Manage Users'. The 'Actions' column for each user contains icons for edit, key, and delete.

Username	Permissions	Actions
abeturholder	<input checked="" type="checkbox"/> Manage Company Details <input checked="" type="checkbox"/> Manage EPD's <input checked="" type="checkbox"/> Manage Guarantee orders <input checked="" type="checkbox"/> Manage Users	
ako_042_2425	<input checked="" type="checkbox"/> Manage Company Details <input checked="" type="checkbox"/> Manage EPD's <input checked="" type="checkbox"/> Manage Guarantee orders <input checked="" type="checkbox"/> Manage Users	

In the new window, fill the required information and click on the [Save](#) button.

A form for creating a new user. It contains six input fields: 'First name *', 'Last name *', 'Email *', 'Username *', 'Password *', and 'Confirm password *'. Each field has a horizontal line for text entry. To the right of the form are two buttons: 'Cancel' and 'Save'. The 'Save' button is highlighted with a green border.

The new user will be displayed in the [User list](#).

5.2. Edit TIR-EPD User

User management is available if the [Manage users](#)' rights were attributed to the user. To edit a new user, go to [Company info](#) => [General info](#) => [User list](#) => click on [Edit user](#) in the line, corresponding to this user:

The 'Company info' section of the application. It has tabs for 'General info', 'Profile', and 'User list'. The 'User list' tab is active and highlighted with a green border. Below the tabs is a search bar labeled 'Username' with a 'Clear' button and 'Filter' and 'Add user' buttons. A table lists users with columns for 'Username', 'Permissions', and 'Actions'. The first user is 'abeturholder'. The 'Permissions' column shows four checked items: 'Manage Company Details', 'Manage EPD's', 'Manage Guarantee orders', and 'Manage Users'. The 'Actions' column shows three icons: a pencil (highlighted with a green border), a key, and a trash can.

Username	Permissions	Actions
abeturholder	<input checked="" type="checkbox"/> Manage Company Details <input checked="" type="checkbox"/> Manage EPD's <input checked="" type="checkbox"/> Manage Guarantee orders <input checked="" type="checkbox"/> Manage Users	  

In the [User details](#) window, make the necessary changes and click on the [Save](#) button.

The 'Edit user - abeturholder' form. It contains three input fields: 'First name *' with the value 'TUR', 'Last name *' with the value 'holder', and 'Email *' with the value 'turholder@gmail.com'. Each field has a horizontal line for text entry. To the right of the form are two buttons: 'Cancel' and 'Save'. The 'Save' button is highlighted with a green border.

5.3. Change user password

User management is available if the *Manage users'* rights were attributed to the user. To change a password, go to *Company info => General info => User list =>* click on *Change password*:

Username	Permissions	Actions
abeturholder	<input checked="" type="checkbox"/> Manage Company Details <input checked="" type="checkbox"/> Manage EPD's <input checked="" type="checkbox"/> Manage Guarantee orders <input checked="" type="checkbox"/> Manage Users	  

In the pop-up window, make the necessary changes and click on the *Save* button.

User password reset

You are about to change the password for user **abeturholder**. In order to proceed, please fill the form below:

Password *

Confirm password *

Cancel Save

5.4. Delete TIR-EPD User

User management is available if the *Manage users'* rights were attributed to the user. To delete a new user, go to *Company info => General info => User list =>* click on *Delete user*:

This action will *deactivate* the user, who, however, will remain in the *User list*. If you want to completely *delete* a user, click on  icon. To *reactivate* this user, assign the rights again.

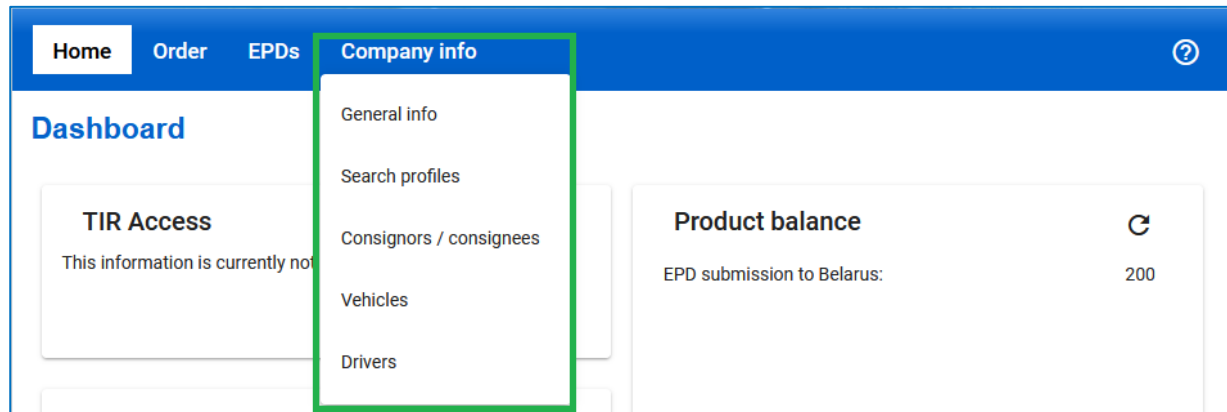

5.5. Change My password

If you want to change your password, click on *Change password* in the login menu:

6. Manage company Database

By moving the cursor to [Company info](#), you can choose [Search profiles](#), [Consignors / consignees](#), [Vehicles](#) and [Drivers](#) in order to create or update the respective entries in your database, which you can then use when submitting EPD.

Here we will take the [Consignors / consignees](#) section as an example to add and update a consignor. **The same principle applies for adding and updating vehicles and drivers.**

1. Move the cursor to [Company info](#) and select [Consignors / consignees](#).
2. Click on [Add new partner](#)
3. Fill in the required information in the [Add new partner](#) window. On this screen you can also check the correctness of [EORI number](#).

Please, make sure that the consignor / consignee information indicated in the TIR-EPD application corresponds to the information contained in the EC EORI database (if/when EORI is required); in case of mismatch, your EPD may be rejected.

The screenshot shows the 'Add new partner' form. It is divided into two main sections. The left section contains fields for: 'Input language *' (set to English), 'Alphabet' (set to Latin), 'Name *', 'Short name', 'Street and number *', 'Postal code *', 'City *', and 'Region'. The right section contains fields for: 'Country *', 'Email', and 'EORI'. The 'EORI' field is highlighted with a green box and has a magnifying glass icon next to it. Below the 'EORI' field is a blue button labeled 'Add translation', which is also highlighted with a green box. At the bottom right of the form are two buttons: 'Cancel' and 'Save', with the 'Save' button highlighted with a green box.

4. If you might require the consignor / consignee details in another alphabet than Latin, it is recommended that you click on [Add translation](#) and enter the same information in other characters too.
5. Click on [Save](#) button.

Once the entry is saved, you can [Edit](#) or [Delete](#) it from the relevant list.

Consignors / consignees					
Name, Street, City, Country, EORI etc.					
			Clear	Filter	Add new partner
Name ↑	Street and number	City	Country	EORI	Actions
ABC	45 bravo	Tashkent	Uzbekistan		 
ADL INTERNATIONAL GENERAL TRADING	P.O.BOX 8811	DUBAI	United Arab Emirates		 

7. TIR-EPD Operations

The TIR carnet holder details and the details of the TIR transport included in EPD **must match the respective information indicated in the TIR carnet. A mismatch between the data in your pre-declaration and that in your TIR Carnet may result in rejection of your EPD by the customs officer at the border.** Part of the information sent with the EPD will be **automatically controlled by the customs system** (format and logistics control) and may be rejected in case of incorrect or irrelevant data.

By moving the cursor to [EPDs](#), you can choose [Create new EPD](#), [Search draft](#), [Search submitted EPDs](#) and set up [EPD preferences](#):

Home Order **EPDs** Company info

Dashboard

TIR Access

Quota: / 5000 total

My company status Admitted

Product balance

EPD submission to Belarus: 302

GDA submission to Ukraine: 27

Create new EPD

Search draft

Search submitted EPDs

EPD preferences

TIR-EPD application allows the following operations:

1. [Create and send pre-declarations](#). These pre-declarations can be created by
 - a. entering all data for the first time ([New EPD](#)), or
 - b. using a previously sent pre-declaration as a template ([Duplicate EPD](#)), thus minimising data entry when the content of the new pre-declaration is similar to the one sent previously.
2. [Search](#) for previously sent EPDs using different filters
3. [View messages](#) from Customs for submitted pre-declarations.
4. [Create EPD drafts](#)
5. Receive e-mails indicated in your company profile with messages sent to- and received from- the customs.
6. View and [print out EPDs](#) sent to customs authorities
7. [Print out EPD pass](#) for countries where EPD was submitted, for presenting it to customs authorities
8. [Print out CMR](#) based on the EPD information
9. [Share created EPD](#) with 3rd party if needed

7.1. Create and Submit new EPD

There are several ways to create a new EPD. You can select [Create new EPD](#) from the home page shortcut or access the function from the EPDs menu. You can also create new EPD from [Search submitted EPDs](#) page:

The screenshot shows the TIR EPD Dashboard with a blue header containing tabs: Home, Order, EPDs, and Company info. The EPDs tab is active, and a dropdown menu is open, highlighting 'Create new EPD' and 'Search submitted EPDs'. The dashboard includes a 'TIR Access' section with a quota of 5000 total and a 'Product balance' section showing 302 EPD submissions to Belarus and 27 to Ukraine. A 'Shortcuts' section on the left lists 'Create new EPD' and 'Search submitted EPDs' as highlighted options.

The screenshot shows the 'Search submitted EPDs' page. It features search filters for 'Criteria type', 'Search criteria', and 'Show' (set to 'All submitted EPDs'). There is also a date range filter 'From - To' set to '22/10/2022 - 22/11/2022' and a 'Type' dropdown. At the bottom right, there are 'Clear', 'Filter', and 'New EPD' buttons, with the 'New EPD' button highlighted with a green border.

Step 1: Declaration start

The first step reflects the type of the guarantee used. Select the corresponding [Type of guarantee](#), add a note or description if needed and click on [Next](#):

Note:

- The unique identifier of the holder will be assigned automatically. In case a third party (e.g. a broker) creates an EPD for a TIR holder, it must be indicated *holder unique identifier number*.
- The information reflected in the *Note/description* will not be sent to the customs authorities, it is for personal use. May be useful when searching for EPDs using the filter *Criteria type = Description*

Step 2: Itinerary

On the *Itinerary* page **enter all the countries of your itinerary in chronological order, from the first loading to the last unloading (even if those are not performed under TIR procedure)**. List all the countries of your itinerary, including transit countries. Indicate Start and End of TIR operation, and all places of loading and unloading.

Note:

- in line with the TIR Convention the total number of customs offices of departure and destination for the TIR procedure cannot exceed 8 (eight) for a 16v Carnet.

If you have more than one loading or unloading operation in the same country, please list this country as many times as necessary, as shown in the example below.

Itinerary

Please list all of the steps in your itinerary in chronological order, even if transit operations are not performed in those countries.

	Load goods	Unload goods	
Country * Iran (IRN)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	START TIR
<div> </div>			
Country * Turkmenistan (TKM)	<input type="checkbox"/>	<input type="checkbox"/>	START TIR END TIR
<div> </div>			
Country * Uzbekistan (UZB)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	START TIR END TIR
<div> </div>			
Country * Uzbekistan (UZB)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	END TIR

[Add step](#)

< Previous Next >

By default, there are the fields for 2 steps of the transport on this page. You can click on [Add step](#) every time you want to add one more step. When a step is added, [Unload goods](#) and [End TIR](#) will be placed automatically on the last step. **It is recommended to first indicate the full itinerary and then to check the appropriate boxes for Load goods / Unload goods / Start TIR / End TIR.**

The [Means of transport](#) between countries can be selected (road, rail, air, sea), road being selected by default.

Based on the information indicated at step 2, the TIR-EPD application will calculate, to the customs offices of which countries you shall submit EPDs, as well as all mandatory information required by the customs authorities of these countries.

Useful tips:

- ✓ Start typing the first letters of the country or its 2-3 letter ISO code and the application will give you suggestions in the automatically appearing drop-down list under the field.

Step 3: Customs Operations

On the [Customs operations](#) page select the customs offices along your itinerary. For certain countries in your itinerary, you will be also proposed to select the [Movement reason](#) (import, export, transit), field under the respective customs office.

Customs operations

Based on your itinerary, EPD's may be sent to the following countries

Send ☒ EPD

Service Availability

Turkey (Load / Start TIR) *
AKSARAY / AKSARAY GUMRUK MUDURLUGU (TR06...
Movement reason: *
Export

Turkey (Exit) *
ARDAHAN / AKTAS GUMRUK MUDURLUGU (TR080...
VPN # 1 - 2

Send ☒ EPD

Service Availability

Iran (Enter) *
Imam Khomeini Airport (IR10103)

Iran (Exit) *
Noshahr E.E.Z. (IR20306)
VPN # 3 - 4

Send ☒ EPD

Uzbekistan (Enter) *
Toshkent halkaro ajeroporti (00101)
Movement reason: *
Import

Uzbekistan (End TIR / Unload) *
Keskanjor (03013)
VPN # 5 - 6

< Previous

Next >

The operations, for which it is possible to create EPD have [Send EPD](#) check box, this means that the EPD will be sent to the customs authorities of the respective country. In case you do not want to send EPD to a certain country, you can uncheck the respective box on the left. Carnet page numbers ([VPN](#)) are calculated automatically. In case of any discrepancies, please verify your itinerary on the previous page.

Notes:

- A customs operation in countries within the same customs union is represented as a single line.
- Upon completion of the customs office of exit from a country, the application may fill in automatically the customs office of entry to next country / union, if:
 - the EPD database has information about such connection
 - the field of the next customs office of entry is empty and active

At any time, the user may select any other Customs Office in Exit / Entry fields.

Useful tips:

- ✓ Start typing name or code of the customs office and the application will give you suggestions in the automatically appearing drop-down list under the field

- ✓ If there are any [available services](#) provided by third-party at the indicated border crossing point, a special indicator will appear. You can check the relevant information to find more if needed (e.g. additional services provided by the authorised broker, warehouse, freight forwarder).

Partners available along your itinerary

Name	Profile type	Country	Customs Offices
POLWH Test	Warehouse	Poland	<ul style="list-style-type: none"> • BIAŁA PODLASKA / BIAŁA PODLASKA OC

Container - 3183781268 - [Uzbekistan (UZB)]

Container registration number *
 3183781268

Container nationality *
 Uzbekistan (UZB)

Add container

< Previous
 Next >

It is possible to select different vehicles and, if required, drivers for each leg of the journey. By default, the application assumes that the vehicle and driver are the same for the whole journey. If it is not the case, the tick mark should be removed from the respective box.

Useful tips:

- ✓ If you want to choose a previously saved vehicle / trailer, start typing the *vehicle plate number* or *VIN*. The application will display the search results in the drop-down list.

Vehicle info

☒ Same vehicle details on all the itinerary

☐ Transport includes containers

Turkey	Uzbekistan	Truck *	Trailer	Trailer 2	Driver *
TR061000 - AKSARAY / AKSARAY GUMRUK MUDURLUGU	03013 - Keskanjor	1104I48 (TUR XLMT485IC0E2048)			MEMET AKTAS

110

1104I48 (TUR XLMT485IC0E2048)

Trailer

Trailer 2

Driver *

MEMET AKTAS

If you want to add a new vehicle or edit the data of an existing vehicle, use the appropriate icons next to the field [Add](#)  or [Edit](#) . If you choose to add a new vehicle, a window will open, where you can enter the vehicle information.

Select [vehicle type](#) and [subtype](#) as described from the corresponding drop-down lists.

The same way, fill the trailer information (if applicable).

If you transport a container, you might be required to fill in the additional information depending on the countries in your itinerary. If you have several containers, you can add more by clicking on [Add container](#).

Note:

- The [driver field](#) appears only if you send the EPD to a country, which requires this element.

The same principle as for the vehicle information applies for filling the driver's information on this page. If you want to choose a previously saved driver, start typing his last, first or middle name. The application will display the search results in the drop-down list.

If you add a new driver, his nationality is offered by default based on the country of your company profile. However, you are free to change it. New driver or vehicle added will be saved for the future use.

Step 5: Consignment

The data entry at step 5 is organised on consignment and goods item levels. **One consignment means one or more goods items, which are transported from the same consignor to the same consignee under one CMR.** When information is entered at the consignment level, it is related to all goods items within this consignment.

Consignments

1 - IRU20220422425N198
Turkey - Uzbekistan

ADL INTERNATIONAL

< Previous

Next >

By clicking on the [Duplicate goods item](#) icon, you can copy the data of relevant consignments / goods item to use it for the new item having similar information. To change the data of item, click on the [Edit](#) icon.

Note:

→ One consignment must include at least one goods item.

Useful tips:

- ✓ You can [Import goods items](#) from an excel file by pre-loading the appropriate [Template](#) (see yellow highlighted in the image). This function is very useful if you often transport the same goods.

On the [Consignment page](#) some fields ([Place of loading](#), [Place of unloading](#), [Country of TIR departure](#), [Country of TIR destination](#), [Movement reason](#)) are filled in automatically based on the information entered on the [Itinerary](#) and [Customs operation](#) pages:

Note:

- In case with [several loading/unloading places](#), this implies that you will form more than one consignment, therefore, you shall choose the place of loading/unloading from the drop-down list. The respective country will be displayed automatically once you choose the place of loading/unloading for this consignment.

You can choose early created [Consignor/Consignee](#) from the list or add  new one. Before adding a new [Consignor/Consignee](#), please check if the [Consignor/Consignee](#) has already been added and if so, please choose it from the list. Adding duplicate accounts of [Consignors/Consignees](#) may cause problems when sending EPD to certain countries. Please refer to the section [Manage Database](#).

You can edit  the [Consignor/Consignee](#) information of needed.

If your itinerary includes an EU country, the boxes [Same original consignor](#) and [Same final consignee](#) are shown on this page (see below). These are selected by default. If your original consignor/consignee is not the same as final consignor/consignee, uncheck this box(-es), following which the field(s) for [Consignor/Consignee](#) (Final Consignor/Consignee) and [Original Consignor/Consignee](#) will appear, where you shall enter the data.

In the same section, indicate the documents, which cover all goods items in your consignment. If there are any documents, related to a particular goods item of the consignment, they can be added further at the goods items level. By clicking on [Add document](#), you will open the

respective part for filling the attached document data. If you want to add another document, click on [Add document](#).

On the [Goods information](#) page, enter the goods commodity code ([TARIC](#), and/or [TNVED/CHN HS](#)) in the appropriate field. The [Goods description](#) field can be filled in manually, or click on [loupe](#)  icon, following which [Search code](#) window will open.

In a [Commodity code](#) window type either a complete code or minimum first 4 digits of the code and then click on [Search](#). The search window will display all available codes closest to your search criteria with the corresponding description in two languages for the purpose of reference.

Search TARIC codes

Search codes *

310210

Search

3102	Mineral or chemical fertilisers, nitrogenous
310210	Urea, whether or not in aqueous solution
31021010	Urea containing more than 45% by weight of nitrogen on the dry anhydrous product
31021090	Other

Close

Only the codes in blue (with hyperlinks) comply with the customs criteria for the respective country(-ies). Click on the required code in blue and it will be inserted in the [Commodity code](#) field on the [Goods information](#) page. In this case, the [Goods description](#) field will be filled automatically with the description, corresponding to this code and in corresponding language, depending on which part of the table (e.g. English, Russian (Cyrillic) or Chinese) you have selected the required code from. However, you can edit, complete or delete this information when required, considering that **it shall correspond to the description in the TIR carnet**.

Note:

- For goods description in Latin characters the following symbols are accepted: **a-z, A-Z, 0-9, -, , (,), ., /**
- For goods description in Cyrillic characters the following symbols are **accepted: a-z, A-Z, 0-9, а-я, А-Я, -, , (,), ., /**
- If automatically inserted goods description states “Others”, or other general name of goods group with the word “other” is used (e.g. “Other games”), it is recommended to manually enter the description of transported goods item in accordance with your accompanying documents.

Enter other remaining data on this page:

- The [Weight](#) format is uniform for all languages and is generated automatically, e.g. 1 000.00 for one thousand kg (hundreds from thousands are separated by space, and decimals from units are separated by full stop).
- For [Invoice currency](#), you can use the automatic search function by starting to type the first letters of the country or the currency conventional abbreviation. Please note that depending on your itinerary and if multiple currencies are indicated, you will be asked to add currency exchange rate.
- The field [Additional units of measurement](#) with its respective field [Quantity](#) appears according to the selected commodity code, i.e. for those goods items, for which additional units of measurement are applicable. Possible units of measurement are given then by default in this field (e.g. number of pairs for roller skates). Quantity field needs to be filled for the information to be transmitted to the customs.

Note:

- When sending an EPD to Belarus, it is possible to add more additional units of measurement by selecting the corresponding button: [Add Units of Measurement](#), and choosing the required unit from the list and indicating the Quantity
- For the [Type of packages](#), you can use the automatic search function by starting to type the first letters of the package type or its conventional abbreviation.
- The [attached documents](#), which you have added at the consignment level, apply for all goods items of the given consignment. However, if you want to add one or more attached documents related exclusively for the given goods item, you can add them in the Attached documents section on the goods item page.

If you have more goods items in the consignment, click on [Add another item](#) and fill in the next goods items data. When finished, click on [Save](#) button and the application will bring you to the [Consignments summary page](#). This page gives you the summary of the information you have entered, including the total number of packages and the total weight.

< Previous

Next >

Note:

- Upon adding any subsequent goods item to any consignment, the application will fill in the *Kind of packages* and *Invoice Currency* fields with the values, entered for the previous goods item of this consignment. You may change these values at any time.
- If you have indicated one container for your EPD, the application will fill in the *Container* field automatically for the first goods item of any consignment. You may change this value or set the container field as empty. Upon adding any subsequent goods item to any consignment, the application will fill in the container section based on the selection made in the previous goods item. If you have indicated multiple containers, the application will not prefill the *Container* field, you will need to select the appropriate container under each goods item.

Step 6: Send

The *TIR carnet number* and its *validity date* are entered on the last page of the EPD filling process. This page gives you the summary of the information you have entered, including the *total number of packages, the total weight, countries where EPD will be sent*. You can also check and, if necessary, change the company information using the *Edit*  button next to *Holder unique ID*.

Check that the information entered in the EPD is correct, accept the terms and conditions by ticking the relevant box, fill in Declaration Place and click on Send EPD.

Note:

- If you enter incorrect TIR Carnet information, the respective field will be highlighted in red.
- The separators of date, month and year in the date format follow the regional settings for the interface language. If you choose the date from the calendar, the regional format is used automatically. If you enter the date manually, either use the separators according to the regional settings of the interface language (e.g. for English - dd/mm/yyyy), or enter the date without separators (ddmmyyyy) and they will be inserted automatically.
- If you are unable to proceed, please verify your data and try again. If the information is still not accepted as correct, please contact your Association.

Useful tips:

- ✓ If for some reason you do not want/can't send the EPD, the information previously entered is automatically saved in a draft, which you can find at *Search draft* section
- ✓ In the process of EPD filling you can return to the previous steps either by pressing the *Previous* button or by clicking on the required step in the progress-bar. In case of choosing the progress-bar to jump to one of the previous steps, the information entered in all the passed steps will be saved except for the unsaved information entered in the last step, from which you decided to return to one of the previous pages.

7.2. Search submitted EPDs

At any time, you may need to view an EPD, which was sent earlier.

On this page you can use the [Search](#) function, which allows EPDs search by:

- TIR guarantee number
- Type of TIR guarantee (paper, electronic)
- Country, where EPDs were submitted
- Status of submitted EPD
- EPD reference number (LRN, MRN)
- Period
- Description (indicated at "Note / description" when sending an EPD)

The first page of the EPD pass contains summary information: [TIR Carnet number](#), [customs posts where the EPD was sent](#), [relevant customs references](#), [registration dates](#). EPD pass contains also a [PIN code](#) that can be sent and used by a 3rd party to assist in resolving an issue related to the EPD:

	 JX85151526	
TIR Guarantee JX85151526		PIN code 15a4
Transit electronic declaration details:		
Country	Customs Ref. Number	Registration Date
IR - Khoramabad [IR15501]	IRNCUS568372274566	17/11/2022 16:56 UTC
TR - AGRI / GURBULAK G... [TR041600]	20TUR66280465747123	17/11/2022 16:56 UTC

Next EPD pass pages are dedicated to the appropriate customs office where EPD was sent:

	 IRNCUS568372274566
	TIR-EPD
Information for customs officers	
TIR Carnet number - Volet Page Number	JX85151526 - VPN1
Country - Customs	IR - Khoramabad [IR15501]
Transit electronic information number	IRNCUS568372274566
Receipt date and time for the number	17/11/2022 16:56 UTC
Note	
This declaration is submitted in accordance with the agreement between the National Customs Authorities and the IRU and serves as a trade facilitation tool. Thus, it allows to increase the security and reduce the border crossing time.	
PIN code 15a4	

Share EPD

If you need to share submitted EPD with a 3rd party (e.g. broker or your association) you can use [Share EPD](#) from the [EPD actions](#). A relevant content will appear in a pop-up window:

Share the EPD

You can share this EPD with your broker, freight-forwarder or warehouse. It's easy: just copy the following link and share with the desired person.

EPD unique identifier: dff1fb11-1c03-4f8b-93b8-0c74c7cb58b5

Holder ID: TUR/042/2425

[Link to share](#) [Copy the link](#)

-93b8-0c74c7cb58b5/carnet?onBehalfOf=TUR0422425

Close

Click on [Copy the link](#) to send it together with the [Holder ID](#) to the relevant third party.

Note:

- To authorise a third party to submit an EPD on your behalf, check if the relevant rights are set up on the [Company Information - General Information](#) page (see [Company Profile](#) above current document)

Amend EPD

The amendment action is available for EPDs which have already been sent and for which the confirmation from customs has been received before the release for transit message. An amendment may be necessary if there are changes to the information previously declared in the EPD (e.g. the route has changed, or the driver has had to be changed, etc.). To amend an EPD click on [Amend](#) from actions menu for the relevant EPD. The EPD form will open:

Once the data has been changed and the new EPD has been sent, the **Versions** icon  is applied to the relevant EPDs. To see all EPD versions click on versions  icon:

Note:

- Every time you amend your EPD, **you should print out the updated version of your TIR Carnet and EPD Pass.**

Resend EPD

You may need to [Resend](#) the EPD if it has not been delivered to the customs system due to connection problems (EPD status = *Not sent / Not processed*). A pop-up message will indicate to which customs offices it is possible to resend and additional warning messages for specific countries, if any (e.g. warning messages when resending EPD to BLR).

Confirmation

A resend for this pre-declaration is possible. The list below details to which customs offices a resend of the message is possible. Please confirm the action.

- ✓ ISR - NEHAR HAYARDEN
- ✗ XAK - XAkistan Border 2

Confirm Cancel

Confirmation

 Payment will be required to submit the pre-declaration to Belarus.

 Several countries have introduced restrictions on the transportation of certain types of goods to and from Belarus.
Before accepting any shipment, please check the applicable international sanctions restrictions in order to comply.

A resend for this pre-declaration is possible. The list below details to which customs offices a resend of the message is possible. Please confirm the action.

- ✓ UZB - Toshkent halkaro ajeroporti
- ✓ BLR - Brest Kozlovichi

Confirm Cancel

7.3. Search draft

At any time, you can prepare and save a draft for an EPD to be submitted later. You can create draft by clicking on [New EPD](#) or on [Duplicate](#) to create a draft from submitted EPD. New EPDs that have been created but for some reason have not been finalised and sent at the last step are also automatically saved in *Search draft* section.

On this page you can use the [Search](#) function, which allows EPDs draft search by:

- TIR guarantee number
- Type of TIR guarantee (paper, electronic)
- Period
- Description (indicated at [Note / description](#))

Search draft

8. TIR-EPD Preferences

Move your cursor to [EPDs](#) and select [EPD preferences](#):

In the EPD preferences window choose the language, which you would like to set by default for the mentioned fields:

In case you do not want to send EPDs to certain countries or customs unions, you can mention them in the relevant section.

Notes:

- If you do not choose default languages in your preferences, the default language in the specified fields will be the language of the interface.
- If after saving in your preferences the countries / unions, to which you do not want to send EPDs, you decide to send your EPD there exceptionally, you can put a tick mark in the [Send EPD](#) column on the [Customs operation](#) page. The hidden fields will become required.

New EPD

Customs operations

Based on your itinerary, EPD's may be sent to the following countries

Send ☐ EPD Service Availability

Customs union : EU VPN # 1 - 2

Poland (Load / Start TIR) * Poland (Exit)

Send ☒ EPD Service Availability

Customs union : EU VPN # 1 - 2

Poland (Load / Start TIR) * Poland (Exit) *

☒ Send security elements

- If you decide to duplicate an EPD, the marked choice in the [Send EPD](#) column will be saved as in the copied EPD.

Annex 1: List of Message Statuses

Status	Explanation
Not sent / Not Processed	The IRU TIR-EPD application is in the process of sending your pre-declaration. Check the EPD status in several minutes. If your status remains the same during 10 minutes, please report it to your Association or to IRU.
Sent - Wait for Reply	Your pre-declaration was sent to Customs Authorities, which usually send a reply message. You need to wait for the Customs Reply before going to Customs. If no reply is received within 30 minutes after your EPD was sent, please report it to your Association or to IRU.
Acknowledgement received, go to Customs	Customs confirm the receipt of your pre-declaration Present the number in the Reference #column to the customs officer.
Confirmation received, go to Customs	Customs allocated an MRN reference number for your pre-declaration. Present the number in the Reference # column to the customs officer.
Rejected, check the reason	Your pre-declaration was rejected (was not accepted) by the Customs System. Check the message from customs with rejection reason, make the necessary corrections and re-submit EPD or contact your Association for support.
Sent - go to Customs	Your pre-declaration was sent to the Customs Authorities, which do not send the electronic response. Present the number in the Reference #column to the customs officer.
Goods released for transit	Message from the Customs Office indicating that the goods were released for transit and left the Customs Office where the EPD was sent to.
Customs cancelled your data	Submitted EPD was cancelled by the Customs authorities. This could be due to non-presentation within a given time after sending or due to Amendment of EPD, which leads to cancelation of the original EPD that was sent. The amended (new) EPD can be accepted by Customs.
Customs discharged your transit operation	Message from Customs notifying that the operation covered by the TIR guarantee on the Customs territory was successfully concluded. Movement is closed.
Request on non-arrived movement	Message from Customs Authorities that requests to provide information about the reason for non-presentation at the Customs Office of exit/destination/unload. Open the message and reply to customs with information about non-arrived movement.

Annex 2: Purchase of units for submission of advance cargo information to Belarus

To be able to submit the advance cargo information to Belarus, you must purchase the units for 1, 5, 10 or 20 EPD's.

Click on the [Purchase product](#) button in the Shortcuts section of the home page or click on [Order => New order](#).

Step 1: Follow the 4-step process. Indicate [Units for EPD submission \(issues by IRU\)](#)

Step 2: Choose the *Quantity* of units at the relevant product section

New order

Product selection

Pack of 1 units for EPD submission to Belarus
CHF5.00 - issued by IRU

-

2

+

Pack of 5 units for EPD submission to Belarus
CHF22.50 - issued by IRU

Pack of 10 units for EPD submission to Belarus
CHF45.00 - issued by IRU

Pack of 20 units for EPD submission to Belarus
CHF90.00 - issued by IRU

Order view

Product	Quantity	Unit price	Total price	Remove

PURCHASE

Subject to your credit card, you may have a possibility to select the preferred currency of the payment:

The screenshot shows a 'Secured payment' interface. On the left, under 'Total amount', it displays 'EUR 110.00'. Below this, under 'Offer', is 'EPDBYT-00000117'. Under 'Merchant', it lists 'IRU', 'Voie Creuse 16', '1211 Geneva 20', 'Switzerland', 'christophe.richard@iru.org', and '+41229182742'. On the right, it says 'Pay now in your national currency and you will know today what your purchase will effectively cost.' followed by the VISA logo. Below this, it asks to 'Please select the preferred debiting currency.' and shows a checked option for '15,786 JPY (Exchange rate 1 JPY = 0.006968096 EUR)' and '110.00 EUR'. A light blue box contains a disclaimer about a 3% surcharge and the user's acceptance of the exchange rate. At the bottom, there are 'Back', 'Cancel', and 'NEXT' buttons.

When the payment is completed, you will see the corresponding confirmation. You can download the invoice with details of your payment:

Step 4: After the successful payment the relevant message appears:

The screenshot shows a 'Payment result' confirmation screen. It states 'The order EPDBYT-00103045 has been placed. Your payment has been successfully completed.' Below this text is a button labeled 'Download the invoice'.

If required, at this step you can download the [Invoice](#) for this transaction.

Payment by Bank Transfer

In case of payment by bank transfer, please select the corresponding option at [Step 3](#), download the proforma-invoice and proceed to payment:

Step 4:

The screenshot shows an 'Order result' confirmation screen. It states 'The order has been placed. Please proceed to payment.' Below this text is a button labeled 'Download the proforma-invoice'.

The bank details are indicated at the bottom of the [proforma-invoice](#):

iru.org

IRU · La Voie-Creuse 16 · Case postale 44 · CH-1211 Geneva 20 · Switzerland
+41-22-918 27 00 (tel) · +41-22-918 27 41 (fax) · info@iru.org

PROFORMA-INVOICE # EPDBYT-00000277

Date of proforma-invoice: 22 January 2020

Description	Quantity	Unit Price	Amount
EPD submission to Belarus - Quantity of units: 10	1	110.00	110.00

Total due in EUR

110.00

Payment terms:

Please proceed with payment by bank transfer to the bank details provided below (all bank charges must be borne by the payer).
Please make sure to include the following reference in your bank transfer instructions: EPDBYT-00000277.

Thank you in advance for your payment.

International Road Transport Union (IRU)
Bank UBS SA Geneva, Account CHF n°: 240-C8760824.0
SWIFT: UBSWCH2H80A - IBAN: CH57 0024 0240 C876 0824 0

Once the payment by bank transfer is confirmed, the units will be allocated, and the invoice will be available (at [Search orders](#)).

Search orders

The order details are available in the [Search orders](#). A pending order can be cancelled, and refund requested to the National Association.

You can manage your unit orders by payment method and order status:

Search orders

Once the payment by bank transfer is confirmed, the units will be allocated, and the invoice will become available. You can also cancel the order if needed. The order can be [Cancelled](#) if needed.

Note:

- When you submit EPD to Belarus, on Customs Operations page you will see a Warning message reminding you of the payment. If you have enough units, you can proceed accordingly, if not, you can purchase them by clicking on [Purchase now](#).

The screenshot displays the TIR EPD system interface. At the top, a horizontal progress bar contains six steps: 1. CARNET, 2. ITINERARY, 3. CUSTOMS OPERATIONS (highlighted with a green circle), 4. VEHICLE INFO, 5. CONSIGNMENTS, and 6. SEND. Below the progress bar, the main content area is titled 'New EPD' and includes a 'Note / description' field. Underneath this, a section titled 'Customs operations' contains a warning message: 'Payment will be required to submit the pre-declaration to Belarus.' This message is enclosed in a green rectangular box. Below the warning message is a button labeled 'Purchase product'. To the right of the warning message, there are three icons: a share icon, a trash icon, and a print icon.

- Application is reminding you of the payment also on Summary page, in case you do not have enough units to proceed. You can purchase the units by clicking on [Purchase now](#).
- In case you need to resend the pre-declaration to Belarus, please note that a new unit will be consumed.
