

Embassy of Hungary

66/2025/Huemb/KIV

The Embassy of Hungary in the Republic of Moldova presents its compliments to the Ministry of Foreign Affairs of the Republic of Moldova and has the honor to inform about the following.

In order to protect the population, the environment and the road network of Hungary, from 1 January 2026, international transit freight traffic can only cross Hungary on the designated road network, the transit road network.

The elements of the transit road network and the conditions of transport will be available at the National Access Point (NAP) operated by the Hungarian Public Roads Nonprofit Private Limited Company (Magyar Közút Nonprofit Zártkörűen Működő Részvénytársaság).

The goal of the transport policy of Hungary is that truck traffic should primarily travel on motorways and expressways and only leave them near their destination, for the shortest possible distance. In order to achieve this transport policy goal, truck traffic will be restricted in several places on the lower-level public road network. Thus, international truck traffic with a destination in Hungary may also encounter new restrictions from January 1, 2026.

The Hungarian Public Roads Nonprofit Zrt. has prepared an interactive map of the signs restricting heavy goods vehicle traffic and national public roads restricted to traffic, which can also be accessed via the National Access Point (NAP) - <https://napportal.kozut.hu/en/#/>."

The Embassy of Hungary in the Republic of Moldova asks to forward the information to the relevant authorities.

The Embassy of Hungary avails itself of this opportunity to renew to the Ministry of Foreign Affairs of the Republic of Moldova the assurances of its highest consideration.

Chisinau, December 16, 2025
